TECHNOLOGIES & METHODOLOGIES

- JavaScript (ES6)
- React JS
- Node.js
- Express.js
- Axios
- MongoDB
- Mongoose
- Postman
- Bootstrap
- HTML
- CSS
- Tailwind
- GIT/Github
- Heroku

EDUCATION

Web Development Bootcamp
Ironhack | full-time Oct-Dec 2021
Barcelona, ES

SheCodes Plus
Online coding course for women
Aug-Nov 2021

Ph.D. in Classical Archaeology
Autonomous University of Barcelona
excellent cum laude | 2016-2019

INTERESTS

sports | sailing | live music

PORTFOLIO

SportBuddy
- Full-stack app based on a map giving the users the nearest sport event, allowing them to join and/or leave, create an event filtering the venue depending on the sport.

Tech stack: React JS, Node.js, Express.js, MongoDB, Mongoose, Postman, Mapbox, Tailwind

BarnaBrew
- An app which allows the user to find their favourite cafes in Barcelona, leave a comment and add their own cafe.

Tech stack: Node.js, Express.js, MongoDB, Handlebars, CSS

Find Atlantis
- A simple game where a player has to catch treasures while avoiding enemies all under 20 seconds in order to win.

Tech stack: JavaScript, HTML, Canvas

PERSONAL PROFILE

I am an academic researcher turned programer with excellent communication skills, both written and oral. By nature I am vigilant and attentive to details, always looking for patterns and connections. I am methodical in processing facts as well as a fast and keen learner. I thrive by working in an agile environment, big fan of teamwork.

PROFESSIONAL EXPERIENCE

Ironhack full-time Web Development Bootcamp | Oct-Dec 2021
- 9 weeks of extensive experience working in an Agile development environment
- Developed a full-stack application in 5 days, among many other projects

SheCodes Plus | Aug-Nov 2021
- 8 weeks coding workshop for women
- Developed a weather application using an external API

WORK EXPERIENCE

- April 2019 - current, post-doctoral researcher at the Catalan Institute of Classical Archaeology
- October 2016 - March 2019 contracted pre-doctoral researcher at Autonomous University of Barcelona
